# MENTORING & CAREER TRACK SCHEME SEMINARS

## “How to design an effective job (chalk) talk”

### Erik Snapp

PhD, Director of  
Student and  
Postdoctoral Programs  
at the HHMI Janelia  
Research Campus

**WEDNESDAY  
26/3/2025**

15:00–16:30

Online &  
Orfanoudakis room

Erik is the **Director of Student and Postdoctoral Programs** at Janelia Research Campus of the **Howard Hughes Medical Institute** since 2016. He works with high school interns, summer undergraduates, graduate students, and postdocs on developing communication skills and navigating career advances and changes. Prior to this job, he was an Associate Professor at the Department of Anatomy and Structural Biology. Erik’s lab focused on studying the **cellular machinery** that regulates secretory protein biogenesis, unfolded protein stress, and in a related project, developed fluorescent proteins for applications in oxidizing environments. His research was employing photobleaching microscopy methods (i.e. FRAP) and fluorescent protein tagged chaperones to study chaperone organization and dynamics in living cells.
