

One (1) Research Assistant Position

[Ref # ORZ-0790]

The Biosensors lab (<http://biosensorslab.biology.uoc.gr/>), headed by Prof. Electra Gizeli, invites applications from a **scientist** for one position to work on the EU **HORIZON-CL6-2023-ZEROPOLLUTION-01** project entitled “On-site biological sensing for aquatic pollutants and biohazards”, Acronym: AquaBioSens.

Job Description: “Development of microalgal whole-cell biosensors and validation of environmental RNA assays”

Development of microalgal whole-cell biosensors and validation of environmental RNA assays

Specifically, the successful applicant will mainly evaluate the use of microalgae as whole cell biosensors. This will include the characterization of cellular functions that can act as sensing elements. The RA will also assist in the validation of previously developed molecular assays for water quality testing around shellfish farms and bathing waters, including toxic marine and freshwater microalgae. The candidate will work closely with international project partners and potentially have opportunities to participate in field testing in Greece, UK and Ireland.

About the lab and new position: The successful applicant will join a **multidisciplinary group** consisting of biologists, chemists, engineers, bio-physicists and material scientists which focuses on the development of diagnostic/biosensing platforms for environmental and healthcare applications. They will contribute to **scientific excellence** and **innovation-driven research**, contribute towards the **broad dissemination of scientific results** and **develop skills** related to presentations, report-writing and scientific papers writing.

About the project:

AquaBioSens aims to decentralize aquatic hazard and pollution measurement tools, aligned with the EU Missions to “Restore the oceans and waters” and achieve a “clean environment with zero pollution by 2030”. The project will develop portable devices to measure emerging contaminants, microbial biohazards, and heavy metals. The devices will employ cutting-edge techniques, including immunoassays for organic contaminants, RNA quantification for harmful microalgae and bacteria, and genetically modified microalgal whole cell biosensors. The project will demonstrate and validate the devices in polluted coastal and freshwater environments in the UK, Ireland, and Greece, with the support of local government inspection agencies. Results will be widely disseminated to maximize the commercial potential of the technologies.

Required qualifications:

- BSc in a relevant biological or environmental science
- MSc in a relevant biological or environmental science
- Oral and written skills in English language
- Able to start in the next 2-3 months

Desired qualifications/requirements:

- Degree or laboratory experience in aquatic/marine science discipline
- Laboratory experience in microalgal cell culture
- Laboratory research experience in molecular biology (nucleic acid extractions, amplification, basic bioinformatics)
- PhD in a relevant subject

	Evaluation criteria	Maximum score
1.	BSc in relevant biological or environmental science (Score points = grade x 1)	10
2.	MSc in relevant biological or environmental science (Score points = grade x 2)	10
3.	Oral and written skills in the English language (proven by certificates or degrees obtained in English language) (B1 = 2 points, B2 = 5 points, C1 = 7 points, C2 = 10 points)	10
4.	Ability to start in the next 2-3 months	YES / NO
5.	Degree and/or laboratory experience in aquatic/marine science discipline	15
6.	Laboratory experience in microalgal culture (6-12 months = 10 points, >12 months = 15 points)	15
7.	Laboratory research experience in molecular biology (nucleic acid extractions, amplification, basic bioinformatics) (6-12 months = 5 points, > 12 months = 10 points)	10
8.	PhD in a relevant subject	10
9.	Interview (general knowledge of the field, motivation, independence)	20
Total score		100

Contract Duration: 12 months with the possibility of extension for another 12 months based on project needs

Salary: competitive salary based on national legislation and depending on qualifications and experience

Envisaged starting date: 1st October 2025

Application submission: Interested applicants should submit their application electronically by **July 25, 2025 @ 13:00 (Greece time)**

The application should consist of:

1. Application Form (see below)
2. CV
3. Brief statement of purpose
4. The names and contact details of two referees
5. Scanned copies of academic titles
6. Scanned copies proving all the qualifications

Submission of applications: orz0790@imbb.forth.gr

Evaluation procedure

Applications will be evaluated by a three-member evaluation committee. In case of interview procedure, applicants will be invited to participate in person or teleconference.

In case of titles and qualifications awarded by foreign Higher Education Institutions, the provisions of the Law 55/2023 (article 36) and 4957/2022 (article 304) are implemented.

The results of the selection will be announced on the website of IMBB-FORTH. Applicants have the right to appeal the selection decision, by addressing their written objection to the IMBB secretariat within five days since the results announcement on the web. Objections are submitted in one of the following ways: in person, by an authorized person, by post, by courier. They also have the right to access (a) the files of the applicants as well as (b) the table of applicants' scores (ranking of applicants results). All the above information related to the selection procedure will be available at the secretariat of IMBB-FORTH in line with the Hellenic Data Protection Authority. Access to personal data of co- applicants shall be limited to personal data (and relevant data) and supporting documents which have been the basis of the evaluation of the applicants for the specific post(s). Prior to the announcement of the personal data and/or documents of the co- applicants to the applicant, FORTH will inform the data subjects in an appropriate way.

The selected applicants will be notified personally regarding the success of his/her application and will be requested to submit certified copies of his/her degrees. If the submitted documents do not agree with the original application, the applicant will be dismissed.

Throughout the duration of the project, and if there is a need to replace persons selected in accordance with this Call, the replacement will be carried out by selecting - based on score/point allocation - another candidate(s) from the compiled ranking list.

In the event that for any reason the funding provided for the project is interrupted, FORTH-IMBB reserves the right to interrupt the execution of the contract with a special declaration of interruption and without compensation.

FORTH-IMBB does not undertake any commitment to conclude a contract and is entitled to cancel or repeat the procedure without obligation to pay any compensation, excluding any relevant claim by the candidates.

Participation in this call for expressions of interest implies full acceptance of the terms of this.

GDPR Disclaimer

FORTH is compliant with all legal procedures for the processing of personal data as defined by the Regulation EU/2016/679 on the protection of natural persons with regard to the processing of personal data. FORTH processes the personal data and relevant supporting documents that applicants have submitted. Processing of that data is carried out exclusively for the needs and purposes of this specific call. Such data shall not be transmitted to or communicated to any third party unless required by law.

FORTH retains the above data up to the announcement of the final results of the call, unless further process and reservation is required by law or for purposes of exercise, enforcement, prosecution of certain one's legitimate legal rights' as defined in the Regulation EU/2016/679 and/or in national law. Under the Regulation EU/2016/679, applicants have the rights to be informed about their personal data, access to, rectification and erasure, restrictions of process and objection to as provided by applicable regulation and national laws. Applicants have the right to file a complaint to the national Data Protection Authority. For any further information regarding exercise of personal data protection rights, applicants may contact the Data Protection Officer at FORTH at dpo@admin.forth.gr.

Applicants have the right to withdraw their application and consent for the processing of personal data at any time. In this case, FORTH shall destroy such documents and/or supporting documents submitted and shall delete the related personal data.

APPLICATION FORM

Name: _____
Surname: _____
Date of birth (dd/mm/yy): _____
Address: _____
Telephone number: _____
Email address: _____

TO
FOUNDATION OF RESEARCH AND TECHNOLOGY (FORTH)
INSTITUTE OF MOLECULAR BIOLOGY AND BIOTECHNOLOGY

Hereby I submit my application for the position:

In the framework of the project: _____

Position code [Ref #] _____

Submitted with this application:

1. _____
2. _____
3. _____
4. _____
5. _____

I certify that:

- A) I accept the terms and conditions of the job announcement
- B) I possess all the necessary certificates and documents and I can present them in their original form to the committee without any delay if I am asked to do so
- C) I am able to complete the project within the foreseen time -frame
- D) all the information given in the framework of this application are accurate and true.

Date: _____
