
The conference is part of the ERA Chairs Programme, an EU-funded initiative under the WIDERA actions of Horizon Europe that aims to strengthen research excellence in “widening” countries by attracting outstanding researchers to lead institutional transformation. The event will showcase the achievements of ongoing ERA Chair projects coordinated by Greek institutions and their partners, highlighting how these initiatives enhance talent attraction, foster international collaboration, and upgrade the research and innovation landscape in Greece. It also seeks to promote dialogue on sustainability, synergies, and long-term impact of ERA Chairs on the national and European research ecosystem.

Organization/Contact:
